

gibbon online **OpenHand™**

Mobilise your Business with gibbon online and OpenHand

Server side forwarding

Send documents of any size direct from your server via your remote device for fractions of a penny - "Server side forwarding" opens up a whole new world of cost saving, connectivity and increased productivity.

Simple Contract

No minimum term, no minimum users and no server licence fee. Probably the least contentious purchasing decision you will ever make.

Save money with openhand

Low cost combined with market leading functionality makes OpenHand the logical solution for mobilising your business.

Worldwide solution

Worldwide connectivity through a range of internet connections "wherever you are" at home, on the road or on the other side of the world.

Security

End to End security using Advanced Encryption Standard (AES) 128 bit. , SSL and IPSec VPNs, and secure authentication, including RSA and Secure ID®, are supported.

Global Address list

Access your company global address list from your remote device

Shared Calendar

OpenHand allows other users (with access) to keep your diary up to date if you are unavailable, maximizing your schedule and improving productivity.

Search Mail

Full remote search facility gives you unrivalled access to historic and not so historic information.

Attachments

Downloading, editing and sending of attachments is a standard function of OpenHand.

Network independent

No lock-in to proprietary devices and networks. You can change your network operator or device without effecting OpenHand.

OpenHand mail

Unlimited remote access to every one of your emails in your server's inbox, folders, public folders and sent items.
